

# Maximizing Research with UBC **Advanced Research Computing**

Michael Nesrallah, Research Computing Specialist  
[michael.nesrallah@ubc.ca](mailto:michael.nesrallah@ubc.ca)

Jerry Li, Life Sciences Specialist  
[jiarui.li@ubc.ca](mailto:jiarui.li@ubc.ca)

## UBC Advanced Research Computing (ARC)

Why does ARC exist?

ARC offers powerful computing resources and guidance to researchers enabling them to reach their research goals.

ARC services are adapted to support the varying sizes and types of research projects.

## VPRI Portfolio Support Throughout the Research Project Lifecycle

The Vice-President Research and Innovation portfolio helps to coordinate and provide the environment for you to pursue world-leading impactful research. Find the support you need below.

The academic research process is intricate, lengthy, and generally requires participation from both internal and external entities.

ARC can help you navigate this process. Red lines indicate with whom we work closely.

	Finding Funding	Developing Your Proposal	Submitting Your Proposal	Managing Your Funds	Conducting Your Research	Mobilizing Your Knowledge
	Finding funding deadlines, information and requirements	Support in preparing funding applications and projects	Ensuring that eligibility requirements are met and signatures obtained	Account set-up, management and reporting	Services, facilities, and support for regulatory compliance	Developing and translating your research into impacts
Start with...	1, 2	1, 2, 3	1, 3, 4	1, 4, 7	5, 6, 8, 9, 10, 11	12, 13, 14, 16
Then try...	3, 4, 5, 14	5, 6, 8, 9, 12, 16				5, 15, 17
ADMINISTRATION, MANAGEMENT & STRATEGIC SUPPORT	<b>1 Office of Research Services (ORS)</b> Helps you to find funding opportunities; obtain institutional signatures for grant applications; manage ongoing compliance requirements; set up a research account and spending limits; transfer research funds; and register a clinical trial. <a href="http://ors.ubc.ca">ors.ubc.ca</a>   604-822-8581	<b>2 Support Programs to Advance Research Capacity (SPARC)</b> Access strategic research development services and resources designed to increase success rate of Tri-Agency funding applications. <a href="http://sparc.ubc.ca">sparc.ubc.ca</a>   604-827-4057	<b>3 Institutional Programs Office (IPO)</b> Receive support through the full cycle of major federal, provincial and regional research awards including those offered by the CFI, the BCKDF, Western Economic Diversification, CPER, and CERCs. <a href="http://ipo.ubc.ca">ipo.ubc.ca</a>   604-822-1352	<b>4 University-Industry Liaison Office (UILO) - Sponsored Research</b> Get support to establish research partnerships with industry, government and non-profit organizations through research contracts and industry grants <a href="http://uilo.ubc.ca">uilo.ubc.ca</a>   604-822-8580		
	<b>5 Indigenous Research Support Initiative</b> Receive professional research support and services when undertaking collaborative research projects with Indigenous communities to ensure projects are based on community-led interests, reciprocal relationships, and principles of mutual accountability. <a href="http://irsi.ubc.ca">irsi.ubc.ca</a>   604-827-2801	<b>6 Animal Care, Biosafety &amp; Radiation Safety Committees</b> Receive guidance and obtain permits and approvals for research projects involving animals, biological materials, and/or radioactive materials to ensure safe and ethical conduct. <a href="http://animalcare.ubc.ca/acc">animalcare.ubc.ca/acc</a>   604-827-5111	<b>7 Research Finance</b> Get help to resolve any funding issues, and to ensure that all of your sponsored research and specific purpose funds are spent in compliance with policies, and are reported appropriately to funders. <a href="http://finance.research.ubc.ca">finance.research.ubc.ca</a>   604-822-3275	<b>8 Office of Research Ethics - BREB &amp; CREB</b> Get support to ensure your research achieves the highest ethical standards, access advice on emerging issues in research ethics, and attend training. Get support for regulatory compliance for US PHS funded studies. <a href="http://ethics.research.ubc.ca">ethics.research.ubc.ca</a>		
FACILITIES & PLATFORMS	<b>9 Advanced Research Computing (ARC)</b> Get support for high-performance computing and data management needs. Access digital research infrastructure and consult with ARC personnel. <a href="http://arc.ubc.ca">arc.ubc.ca</a>   604-822-9274	<b>11 Shared Research Platforms</b> Access state-of-the-art equipment, training, services and support through facilities supported by the VPRI in partnership with Faculties and departments. <b>Plant Care Services</b> <a href="http://plantcare.ubc.ca">plantcare.ubc.ca</a>   604-822-3283 <b>Sequencing and Bioinformatics Consortium</b> <a href="http://sequencing.ubc.ca">sequencing.ubc.ca</a>   604-822-0310 <b>Facility for Infectious Disease and Epidemic Research (FINDER)</b> <a href="http://finder.ubc.ca">finder.ubc.ca</a>   604-827-4807 <b>Upright Open MRI</b> <a href="http://uprightopenmri.ubc.ca">uprightopenmri.ubc.ca</a> <b>Pacific Centre for Isotopic and Geochemical Research (PCIGR)</b> <a href="http://pcigr.ubc.ca">pcigr.ubc.ca</a> <b>UBC Bioimaging Facility</b> <a href="http://bioimaging.ubc.ca">bioimaging.ubc.ca</a>   604-822-3354				
	<b>10 Animal Care and Use Program</b> Access research support, veterinary services, compliance, training, procurement, animal housing, technical services and administrative support. <a href="http://animalcare.ubc.ca">animalcare.ubc.ca</a>   604-822-6283					
INNOVATION, IMPACT & RECOGNITION	<b>12 University-Industry Liaison Office (UILO) - Technology Transfer</b> Contact to disclose inventions and discoveries in order to obtain patents, find licensees and to form spin-off companies. <a href="http://uilo.ubc.ca">uilo.ubc.ca</a>   604-822-8580	<b>13 entrepreneurship@UBC</b> Get support to commercialize ideas and innovations through venture building. <a href="mailto:entrepreneurship@ubc.ca">entrepreneurship.ubc.ca</a>	<b>14 Innovation Partnerships</b> Access Innovation Managers with sector-specific expertise to help stimulate innovation and connect you with partners in industry, non-profit or community groups. <a href="http://innovation.ubc.ca">innovation.ubc.ca</a>   604-354-6851	<b>15 Office of Research Prizes &amp; Awards</b> Receive information, strategic advice & nomination support for major external research prizes and awards, and access UBC's internal faculty research awards program. <a href="http://prizes.research.ubc.ca">prizes.research.ubc.ca</a>   604-827-0042		
	<b>16 Knowledge Exchange Unit (Kx)</b> Helps you to collaborate with decision-makers, service providers, non-profit or community groups to develop and share impactful knowledge. <a href="http://innovation.ubc.ca/kx">innovation.ubc.ca/kx</a>   604-822-3090	<b>17 UBC Press</b> Contact if you want to publish high-quality works of original scholarship with Canada's leading social sciences publisher. <a href="http://ubcpres.ca">ubcpres.ca</a>   604-822-5959				
Still not sure where to start? 604-822-1995   <a href="mailto:vpri.support@ubc.ca">vpri.support@ubc.ca</a>

# ARC Services

ARC provides specialized support to assist with your research needs.

[arc.support@ubc.ca](mailto:arc.support@ubc.ca)

## Compute and storage

Free HPC cluster and object storage platform - key for big data or analysis.

## Training and education

Regular training and education tailored to larger groups or individual research teams.

## Privacy and security

A dedicated team to address your inquiries concerning privacy and security.

## Research data management

Specialized data management support to research teams on an individual basis.

## Discipline-specific expert consultation

ARC team is diverse with many backgrounds, including bioinformatics, medicine, chemistry, physics, library science, computer science, oceanography, and more!

## Software and platforms

We guarantee support for software and platforms used in research, e.g. the REDCap survey tool and the Globus data transfer tool.

# Digital Research Infrastructure – What does it mean for my research?

Talk to us about how you can leverage these systems to improve your research workflow -

[arc.support@ubc.ca](mailto:arc.support@ubc.ca)

# Software and Platforms

3PB +

DATA  
transferred  
using Globus

1,000 +  
USERS on  
REDCap

## 1. HPC Software

**Hundreds of software modules already installed on Sockeye**

Need something not included? ARC will help.

## 2. Globus

**Easy data transfer**

Enables users to securely share large datasets from any location around the world. Integrated with Sockeye, Chinook, and Alliance clusters.

## 3. REDCap

**Online tool**

Research electronic data capture developed for surveys, data entry forms, longitudinal or one-time entry. Platform server is located at UBC.

“ I must also knowledge the incredible amount of support I received from our departmental IT and UBC’s Advanced Research Computing. We were initially worried about the compute, but the ARC team made it possible. ”

450+  
ARC-supported  
research  
publications

“ Thanks for providing us this opportunity to have more computational power. This will substantially help perform quality research works at UBC. ”

“ ...[access to] Sockeye has saved my research career. ”

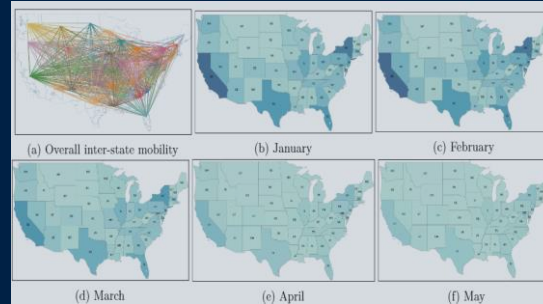

“ Thanks for providing us this opportunity to have more computational power. This will substantially help perform quality research works at UBC. ”

“  
The performance on Sockeye has been great! ”

Dr. Muhammad Abdul-Mageed,  
Assistant Professor, School of  
Information and Department of  
Linguistics

His work focuses on developing  
large language models that can  
improve various technologies.

Muhammad's research involves  
large volumes of simulations to  
train language models using  
statistical learning and natural  
language socio-pragmatics.

## Some Highlighted Researcher Profiles

Dr. Jessica K. Dennis, Assistant  
Professor, Department of Medical  
Genetics and BC Children's Hospital  
Research Institute

Jessica's lab conduct studies in large  
population datasets, working at the  
intersection of genetics, epidemiology,  
statistics, bioinformatics, and computer  
science.

A primary goal of her research is to reduce  
the suffering associated with psychiatric  
disorders, many of which first manifest in  
childhood and adolescence.

# Some Highlighted Researcher Profiles

Dr. Simon Donner, Professor,  
Department of Geography

Simon's research program lies primarily at the intersection of climate change science, marine science, and policy.

Sockeye offers compute power for sizable data sets and use of climate models to examine climate change impacts on ocean.

Dr. Alexandre Bouchard-Côté,  
Professor, Department  
of Statistics

Alexandre's research is in computational statistics and statistical learning. He is interested in the mathematics behind it as well as applications to linguistics and biology.

His methods include: Monte Carlo methods such as SMC and MCMC, graphical models, non-parametric Bayesian statistics, randomized algorithms, and variational inference.

# Partners

We work with partners to deliver services to researchers at UBC and across Canada.

# Thoughts? Questions?
